

This is simple. This is good. This is you.

This is Clean Choice Energy. One hundred per cent solar and wind generated electricity, for your home or business.

Switching from your present electric provider to Clean Choice Energy is the simple part. A few minutes online or on the phone, and your electricity will be one hundred per cent solar and wind-generated.

No fossil fuels, no nuclear reactors. That's the good part. Clean Choice Energy supplies you with electricity only from wind and solar farms. Same wires, same meter, same service ... but pollution-free.

That's where you come in. Return the enclosed card for a followup phone call or in-person visit. You can also check CleanChoiceEnergy.com or call 1(800) MY EARTH to learn more about one hundred per cent renewable-source electricity.

Clean Choice Energy: the most responsible choice you can make.
